Education

Lahore Garrison University

Bachelor of Science in Computer Science

Sep. 2023 – Present

Lahore, Pakistan

Experience

LESCO IT Directorate

Front-End Web Developer Intern

July 2025 – Sep 2025

Lahore, Pakistan

- Built and maintained 10+ responsive, reusable UI components in React.js and Tailwind CSS, reducing redundant code by approximately 30% and improving cross-team consistency.
- Architected global state management using Context API across multi-step forms, eliminating prop-drilling and synchronizing UI state reliably across 5+ interconnected views.
- Collaborated with backend developers to integrate REST APIs, ensuring accurate data rendering and graceful error handling in production-facing dashboards.

Projects

ZhenixAI Code Analyzer | MERN Stack, Gemini API, Prism.js

April 2026

- Built a full-stack AI-powered code review platform that detects security vulnerabilities, logical errors, and performance bottlenecks in user-submitted code in real-time.
- Implemented API response streaming to handle large code snippets with low latency, significantly improving perceived responsiveness and user experience.
- Designed a JWT-based authentication system to enable personalized session management and secure access to user code history.
- 🌐 [Live App](#) — 🐙 [GitHub Repo](#)

Zest AI | React.js, Node.js, Express.js, MongoDB, Groq AI API

May 2026

- Developed a full-stack AI learning platform where users upload documents and receive context-aware summaries, Q&A responses, and conversational support powered by the Groq AI API.
- Integrated Google OAuth 2.0 for secure, frictionless authentication, eliminating the need for manual credential management on the user side.
- Engineered a RESTful backend with Express.js and MongoDB to handle document storage, user sessions, and AI query routing with clean separation of concerns.
- 🌐 [Live App](#) — 🐙 [GitHub Repo](#)

WordsWiz Text Editor | React.js, JavaScript, Tailwind CSS, Web Speech API

Jan 2026

- Engineered an interactive text manipulation platform featuring real-time extraction of URLs, numbers, and special characters alongside live word/character counters and reading time estimates.
- Integrated the Web Speech API to deliver browser-native text-to-speech synthesis with full playback controls (play, pause, stop), requiring zero third-party dependencies.
- 🌐 [Live App](#) — 🐙 [GitHub Repo](#)

Technical Skills

Languages: JavaScript (ES6+), C++, C, SQL, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Context API, REST API Integration

Backend: Node.js, Express.js, MongoDB, JWT Auth, Google OAuth 2.0

AI & APIs: Groq AI API, Gemini API, Web Speech API, Prism.js

Tools: Git, GitHub, VS Code, Postman, Figma, Vercel
